

Fatema Nazari

FULL STACK WEB DEVELOPER

fatemanazari78@gmail.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

Passionate and driven full-stack web developer dedicated to crafting innovative solutions that leave a lasting impact. With a fervent commitment to clean and accessible code, thrives in collaborative environments, where enthusiasm for open-source advocacy shines. Beyond technical proficiency, the ability to mentor and support junior developers sets me apart, having guided over 20 individuals with actionable feedback and motivational strategies. Proficient in a range of technologies, including Ruby on Rails, React, JavaScript, HTML, and CSS, poised to tackle any challenge with adaptability and efficiency.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3

Back-End: Ruby, Ruby on Rails, PostgreSQL

Tools & Methods: Git, GitHub, git-flow, RESTful API, JWT, Unit Testing, RSpec, TDD, Chrome Dev Tools

Professional: Remote Collaboration, Pair Programming, Teamwork, Mentoring, Problem-solving

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer

Remote

May 2023 – Present

- Developed and implemented new features for client projects, resulting in a 20% increase in user engagement over six months. Assisted in the development of a web application, contributing code that improved page load times by 40%.
- Conducted thorough testing and debugging procedures, resulting in a 95% decrease in reported bugs during the testing phase.

Tesla Booking Car: A full-stack app that allows users to sign up, see a list of cars, reserve or manage reservations, and add a new car. It uses a proper authentication system - JWT. Built with **React, Redux, Rails**

DesignX Company - Web Design Conference Page: A Front-end web page and the content of a web design conference can vary depending on the specific event. Still, generally, it includes a range of topics related to web design, development, user experience, and digital marketing. Built with JavaScript, **HTML & CSS**

Space Travelers: A front-end web application that displays SpaceX Rockets using their API. Users can rent their favorite rockets and register for SpaceX missions. Built with **JavaScript, Rest API, React**

MICROVERSE

Mentor (Volunteer)

Remote

August 2023 - Present

- Mentored at least 20+ junior web developers, providing technical support through code reviews.
- Offered advising tips on how to maintain motivation and longevity in the program.
- Mentored over 20 junior web developers, providing technical support through detailed code reviews and guidance.
- Implemented a structured mentoring framework, resulting in a 30% increase in mentee satisfaction and skill development.

EDUCATION

MICROVERSE

May 2023 - February 2024

Remote Full Stack Web Development Program, Full-Time

- Obtained Full Stack Developer Certificate. Completed the rigorous full-stack remote program where I implemented over 20 projects using React, JavaScript, Ruby, Ruby on Rails, HTML, and CSS.
- Developed my skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

KABUL UNIVERSITY

October 2017 - April 2022

Computer Science (Bachelor)

- Participated in numerous group projects, collaborating with peers to design and implement software solutions.
- Gained proficiency in programming languages such as Java, PHP, and Python, enabling me to tackle diverse technical challenges.
- Explored advanced topics in computer science, including data structures, algorithms, database management systems, and software engineering methodologies.
